INTRODUCTION

The following is Management's Discussion and Analysis ("MD&A") of the financial results of operations of Strategem Capital Corporation ("Strategem" or the "Company") for the year ended December 31, 2024, which have been prepared in accordance with IFRS Accounting Standards ("IFRS"). Additional Company information, including the Company's most recent Financial Statements, can be accessed through the System for Electronic Document Analysis and Retrieval ("SEDAR") website at www.sedarplus.ca and the Company's website at www.strategemcapital.com.

All financial measures are expressed in thousands of Canadian dollars unless otherwise indicated.

This information is current as of March 5, 2025.

CAUTIONARY STATEMENTS

Certain information regarding the Company as set forth in the MD&A, including management's assessment of the Company's future plans and operations, contain forward-looking statements that involve substantial known and unknown risks and uncertainties. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency fluctuation, imprecision of reserve estimates, environmental risks, taxation policies, competition from other producers, the lack of qualified personnel or management, stock market volatility and the ability to access sufficient capital from external or internal sources. The actual results, performance or achievement could materially differ from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them does, what benefits the Company will derive there from.

Forward-looking statements included or incorporated by reference in this document include statements with respect to:

- The amount of the changes to net income and investments as a result of changes in prevailing interest rates, economic and market conditions and company specific news;
- Conversion of 220 Class B shares into Class A common shares;
- The Company's earnings and loss fluctuation and the ability to identify and acquire investments that will appreciate in value; and
- The Company's adequate working capital to fund its expected operating costs through 2025.

FINANCIAL INSTRUMENTS AND RISK MANANGEMENT

In the normal course of business, the Company's activities expose it to a variety of financial risks that may affect its operating performance. These risks are credit risk and market risk (including interest rate risk, currency risk and other price risk). The level of risk to which the Company is exposed depends on the type of investments the Company holds. The value of investments can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions and company specific news.

(a) Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The Company is not exposed to significant credit risk on its cash and cash equivalents since they are placed with major financial institutions and brokers. The credit risk exposure of the Company's investments is represented by their fair values disclosed.

(b) Market risk

Market risk is the risk that changes in market factors, such as commodity prices, interest rates or foreign exchange rates, will affect the value of the Company's financial statements. The Company's investment policy states that investments will be made on the basis of investing for purposes of control or for the purpose of being actively involved in management and restricts passive investments. Changes in the future pricing and demand of certain commodities may have a material impact on the market value of the Company's resource, energy, and other investments. The nature of such investments is normally dependent on the invested company being able to raise additional capital to further development and to determine the commercial viability of its resource properties. The value of each investment is also influenced by the outlook of the issuer and by general economic and political conditions. Management mitigates the risk of loss resulting from this concentration by monitoring the trading value of the investments on a regular basis. All securities present a risk of loss of capital. The maximum risk resulting from financial instruments is equivalent to their fair value.

A 1% change in future pricing and trading value of its investments as at December 31, 2024, would change the Company's market value of its investments annually by approximately \$97.

(c) Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. The Company's exposure is limited to its investments in income trusts and other interest-earning instruments which will be affected by changes in applicable interest rates. A 1% change in the interest rate would change the Company's annual net income (loss) by approximately \$7.

(d) Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Company. As a result, the Company may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates.

A 1% change in the US dollar exchange rate relative to the Canadian dollar would change the Company's annual net income (loss) by approximately \$3.

(e) Classification of financial instruments

IFRS 7 establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

- i) Level 1 Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- ii) Level 2 Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- iii) Level 3 Applies to assets or liabilities for which there are unobservable market data.

The fair value hierarchy of financial instruments measured at amortized cost and fair value as of December 31, 2024 is as follows:

As at December 31, 2024	Level 1	Level 2	Level 3	Total
				_
Cash and cash equivalents	695	-	-	695
Investments	9,236	-	490	9,726
	9,931	-	490	10,421

The fair value hierarchy of financial instruments measured at amortized cost and fair value as of December 31, 2023 is as follows:

As at December 31, 2023	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	231	-	-	231
Investments	9,191	-	392	9,583
	9,422	-	392	9,814

MATERIAL ACCOUNTING POLICES

The accounting policies are detailed in the Company's financial statements for the year ended December 31, 2024.

Management Discussion and Analysis
For the year ended December 31, 2024
(Expressed in thousands of Canadian dollars, unless otherwise noted)

SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these judgments and estimates. The financial statements include judgments and estimates which, by their nature, are uncertain. The impacts of such judgments and estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and the revision affects both current and future periods.

Significant assumptions about the future and other sources of judgments and estimates that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Estimates

- The carrying value of the investments, the estimated unrealized gains or losses recorded from the fair value fluctuations, and the recoverability of the carrying value which are included in the statements of financial position;
- The amount of the changes to comprehensive income (loss) and investments as a result of changes in prevailing interest rates, foreign exchange, economic and market conditions and company specific news.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

Changes in Internal Control Over Financial Reporting ("ICFR")

In connection with National Instrument 52-109, Certification of Disclosure in Issuer's Annual and Interim Filings ("NI 52-109") adopted in December 2008 by each of the securities commissions across Canada, the Chief Executive Officer and Chief Financial Officer of the Company will file a Venture Issuer Basic Certificate with respect to financial information contained in the unaudited interim financial statements and the audited annual financial statements and respective accompanying Management's Discussion and Analysis. The Venture Issuer Basic Certification does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109.

DISCLOSURE CONTROLS AND PROCEDURES

The Company's certifying officers are responsible for establishing and maintaining the Company's disclosure controls and procedures. Management, including the certifying officers, have evaluated the procedures of the Company and have concluded that they provide reasonable assurance that material information is gathered and reported to senior management in a manner appropriate to ensure that material information required to be disclosed in reports filed or submitted by the Company is recorded, processed, summarized and reported within the appropriate time periods.
